## PREFACE

The *Directory of Romanian Officials* identifies individuals who hold positions in selected party, government, economic, scientific, and public organizations. It also provides a guide to the internal structures of some of these organizations.

**Dates of Information.** The date columns list the date an individual either assumed or was first identified in a position and his or her most recent identification in that position. The right-hand column is selectively updated approximately every two months when information is available. It does not include dates for members of the Grand National Assembly or the Central Committee of the Romanian Communist Party on the assumption that the incumbents hold these positions for a specified term.

**Transliteration.** Romania uses the Latin alphabet with the addition of diacritical superscripts for the letters *a*, *i*, *s* and *t* to indicate pronunciation. This directory omits all diacritics.

**Personal Names.** Romanian personal names consist of a given name and a family name. This publication lists the full name of each individual whenever it is known. The family name appears first in bold type, followed by the given name. In a few instances, a family name consists of a double name that appears either in a hyphenated form or as two words.

**Additional Directory Entries.** The directory includes political party affiliation for each individual whenever it is known or can be assumed from the position held. It also lists some academic degrees and military and ecclesiastical ranks. The names of organizational components are standardized. Street addresses are provided for some organizations.

An index to major organizations and a personality index follow the directory listing. Duplicate names in the personality index refer to different individuals.
